

Bridgette

Bridgette, a young girl with two children living at home with her parents, called Safe Place to get help. After arguing with her parents she was kicked out of the home with her children, she remembered hearing about Safe Place from a friend at school. She called the Safe Place hotline; she was able to speak with our Safe Place manager and receive the resources she needed to mend the relationship with her parents and move back into her parents' home with her children.
